Notice of Revocation of the Mountain Home Known Geothermal Resource Area: Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Mountain Home Known Geothermal Resource Area (KGRA) was defined effective February 1, 1974. The KGRA was established mostly on the basis of filing of overlapping non-competitive lease applications. Lands offered for competitive lease in 1975 received no bids. A competitive lease issued in 1977 expired in 1983 without exploration or development of any geothermal resources. The last competitive lease sale held in 1983 received no bids. Only about one-half of the land within the existing KGRA is underlain by Federal geothermal rights and none of the hot water wells within the KGRA are on Federal lands. There are no hot springs within the KGRA. The estimated geothermal reservoir temperatures of 70 °C to 135 °C have not been demonstrated. Revised subsurface temperatures are estimated at 60 °C to 80 °C. For the above reason and the absence of any competitive interest, the area does not meet the current KGRA criteria and the lands are recommended to be declassified and made available for non-competitive leasing.

EFFECTIVE DATE: March 4, 1997.

FOR FURTHER INFORMATION CONTACT: Peter Oberlindacher, BLM Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709, 208-373-3884.

The area described aggregate 9,520.17 acres in Elmore County.

Detailed information regarding this action including a description of lands included in the Mountain Home KGRA, are on file at the Idaho State Office of the BLM. Pursuant to authority contained in the Act of March 3, 1879, (43 U.S.C. 31), as supplemented by Reorganization Plan No. 3 of 1950 (43 U.S.C. 1451, note), 220 Departmental Manual 2, and Secretarial Orders No. 3071 and No. 3087, the Mountain Home Known Geothermal Resource Area, serial number IDI-28113, is revoked effective March 4, 1997.
